

# We have had such a wonderful start to our year in EYFS2; we have been so busy learning already...

We can recognise and write the letters to spell our names correctly.

We have been making positive relationships with new friends, teachers and our buddies!

During our daily phonics we are beginning to learn sounds and hearing the initial sounds in words.

We have become super story tellers, looking at pictures for clues and prompts.

We were super excited to partake in a STOMP workshop!

We have been using our bodies to move in different ways during PE.

We can recognise and order the numbers up to 10! We have also begun to write some of these numbers.

## We were so excited when our Magic wands arrived in our Classrooms and brought us a special book about its journey.

The wand is shaking in my hands!!

We composed a piece of music to accompany the Magic Wand's journey.

I would love to go to the magical tree forest!

It's hot! It must be making more magic!!

Our magic wands have been so impressed with our fantastic learning so far, they came together and sent us on a bear hunt! We thought about what we already knew and then planned questions to begin our new learning adventure;

## We're Going on a Bear Hunt!

Uh-uh long wavy grass!

Where do bears live?

Uh-uh a deep cold river!

Why do bears have fur?

Uh-uh thick oozy mud!

Where would you find a bear?

Can bears swim?

What would you take on an adventure?

What other hunts can you go on?

Uh-uh a dark gloomy forest!

What do bears eat?

Uh-uh a swirling whirling snowstorm!

Do all bears live in a cave?

Uh-uh a narrow gloomy cave!

Our WOW moment helped us to plan our next learning adventures...

We will be retelling the story using puppets to help us in the role-play.

We will continue to build relationships, making sure we share and work together.

We will write super sentences; applying our phonics and sentence writing toolkit.

We will use different media and materials to create the scenes from the story.

We will be researching bears to find out the answers to some of our amazing questions.
