

SPORT RELIEF

Last week the children learnt about the reason we have sports relief and explored the positive effect sport and exercise can have on their life.

March 2018

David Weatherill

We were visited by Paralympic table tennis player, and ex Torpoint Nursery and Infant school pupil David Weatherill who played against Year two and some of the staff.

He inspired us to find the sport we love and try really hard to do our best at all things we tried. We found out from him that if we work hard we can succeed!

Sharing Learning with Parents
 We hope you have enjoyed the learning power points that we have shown to parents today.
 You can find out more about what the children have learnt this half term by looking at your 'Learning Letters to Parents' that will be in your child's book bag. The power point and the learning letters are also shared on our school website.
www.torpoint-inf.cornwall.sch.uk

As a school we work hard every day to enable success for children with diagnoses of Autism and also those children who are at the beginning of the journey of possible diagnosis. We also aim to support the families as we recognise the additional challenges that a child with any additional needs can bring to family life.

We also aim to remove stereotypes and educate the children's peers, as part of our broader PSHE curriculum, to help them recognise we are each unique and how we can support our friends through understanding and accepting everyone as special individuals.

School Admissions

The deadline for admissions for a place in Reception, or for a place at Carbeile Junior School has passed however the details of how to make a late application are available on our school website.

If you would like a place in our outstanding, teacher led, nursery for your two or three year old please contact the school office for a leaflet or further details.

Thursday 26 th April and the following four Thursdays- After School Clubs	

Headlice are a problem across society. As a school we recognise that headlice infestation, particularly when repeated, can cause great distress.

One of the best ways to help eliminate them is if everyone in a community checks at the same time, so we are asking all parents to check their children **this school holiday.**
