

We all had a visit from the RNLI at the start of the week and learnt about how to stay safe at the beach and what we should do if we do get into trouble in the sea.

We also like to support the parents of children in our school by providing copies of the Child Accident Prevention Trust's materials. To save resources we have not printed the booklet this year but it is available on the newsletter section of our school website

You can also find further information on child safety at www.capt.org.uk/Pages/Category/safety-advice-injury-types
www.rosipa.com

In addition there is a useful website to look at with your children www.juniorcitizen.org.uk

Each year we use 'Child Safety Week' as an opportunity to reinforce and extend the children's understanding of how they can keep themselves safe and people who help us.

Children across the school have been learning about keeping safe...

- at the beach
- by the roads
- in the sun
- in a car
- in the water
- in school.

The children in Year One helped 'Bossy Beetle' teach his friend 'Careless Caterpillar' about how to stay safe on the playground at the start and end of the school day. They thought hard about using positive instructions. They wanted to share them with all the children in the school so that everyone can stay safe.

Keeping Safe in School

- You must stay with your adult before and after school until you go through your classroom door so they can keep you safe.
- When we are in school we get off our scooters so we don't hurt ourselves or other people.
- Stay off the railings because you might fall and bump your head.
- When you are in school do not climb the trees because you could fall.
- The benches are only for sitting on.
