

We have had a great half-term in EYFS2 learning lots of new things!

We have been using the iPads to design our own robots.

We have been using our phonics to read simple words and sentences.

We have composed our own music to accompany The Gingerbread Man story.

During our daily phonics we have begun to learn to write cvc words.

We have loved doing artwork in the style of Antoni Gaudí.

We ordered length from the shortest to the longest. We then measured the length of objects using cubes.

We have learnt to add and take away numbers using numicon and practical objects.

We have been learning about the properties of 2D shapes.

We have built on our understanding of people and communities around us. Just look at how many celebrations we have taken part in!

Children in Need

Act your age- as we are all turning 5 this year we walked for 5 minutes a day for 5 days!

We looked closely at shapes to help us draw characters and retell the Nativity story.

We used a range of materials to make our class Poppy wreaths.

Christmas

We were superstar speakers, singers and dancers in our Christmas show.

Remembrance Day

We learnt songs and poems that we shared at our Remembrance service.

We followed a design process to make our individual Christmas cards.

We have really enjoyed this term and we look forward to our next learning adventure...
