

We have had a fantastic autumn term this year, we have been very busy...
We have been learning about positive relationships and thinking about seasonal topics.

We are learning how to count on a one to one basis and have become familiar with numicon.

We are learning to move our bodies in a variety of ways, with increasing control.

We have learnt about repeating patterns and can continue a sequence of colours and shapes!

We have been learning about the concept of 'Floating and Sinking' and have used different objects to explore if they will float or sink. We have also made predictions about objects and then put them in the water tray to find out if we had guessed correctly!

During friendship week we discussed what behaviours were 'friendly' and 'unfriendly'. We then sorted different behaviours into these two groups and thought about what our nursery would be like if different scenarios happened.

We helped others. On 'Children in Need Day' we raised lots of money whilst having fun doing Pudsey activities and participating in our 'age challenge' walk. In nursery we walked for 4 minutes 4 times!!

We have also been learning about different celebrations.....

On Remembrance Day we thought about the special people who help us.

We learnt how to stay safe on 'Bonfire Night' We made rockets, printed firework sparkles and danced like a colourful firework using ribbons!

We learnt the story about 'The First Christmas' and explored how families celebrate Christmas differently.

We also celebrate and talk about our own special birthdays!

We performed on stage for our families, singing our Christmas songs to wish them all a 'Merry Christmas'!

Next we will be...

Learning about the world around us by exploring the winter season.

Extending our learning about numbers, by carefully counting accurately on a one-to-one basis to 10+ and beginning to recognise the written numeral, We will also use the numicon value piece to match an amount.

Continuing to write our own names, focusing on using a secure pincer grip and producing the correct letter formations in a consistent manner.

You can help me by: Providing me with suitable outside clothing to allow me to explore the outside environment even if it is wet, cold or windy!
