

We have had a fantastic Spring term, we have been very busy.....Our learning has been centered around the nursery rhyme-

Doctor Foster' focusing on how to be healthy and the weather!

We learnt the nursery rhyme 'Dr Foster went to Gloucester in a shower of rain!' The children made a display to help them remember the rhyme and could repeat it independently.

We have gained a greater knowledge and understanding about good practices with regard to how exercise, eating, sleeping and hygiene can contribute to our good health.

We explored the 'Well-being healthy eating food plate', discovering the different food types and finding out which foods were really healthy for us to eat.

We have worked together to share our knowledge, when creating mind-maps about the different themes within the topic.

We made smoothies, and tasted different fruit and vegetables- making charts to record which ones we liked.

We explored the different kinds of weather. We loved the windy day fun and making rainbow puddles!

We used the topic to create a hospital role-play area. This allowed children to see hospitals in a positive light and through their play it has allowed them to make sense of the world around them.

We have also been learning

We have focused on some of the different celebrations and traditions, such as Pancake Day, St Piran's Day and Chinese New Year. We have been able to make comparisons between celebrations, looking at the similarities and differences.

World Book Day was amazing! We loved dressing up as our favourite book characters. We read lots of stories throughout the day, by selecting a new book to unwrap, every time we heard the 'book buzzer blast'!

We took part in art activities, capturing the signs of Spring.

During the uncertainties of the past year, it is imperative we focus on our mental-health and well-being. During 'Child's Mental Health Week' we made a Photo booth for the children to have fun, laugh and feel happy!

Next we will be...

Learning new nursery rhymes, 'Hey Diddle Diddle' will help us to think about the moon and begin to explore facts and learn about the solar system!

Continuing to focus on writing our names, with all of the letter formations produced correctly and to also learn how to write some numerals correctly.

Learning the letters s,a,t,p,i,n and then m,d,g,o,c,k during our 'Supersonic Phonic' focuses.

You can help me by:
Teaching me to take off and put on my own shoes and socks.

During Comic Relief, we learnt how we could be a Superhero raising money to support others who need our help!
