

We have had such a great Spring Term learning at home and in school! We're very happy to all be back together and we have been very busy already...

We are learning how to read and understand simple sentences in phonics. Please read with us every night!

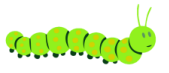

We have been building on our friendships and enjoying spending time with each other.

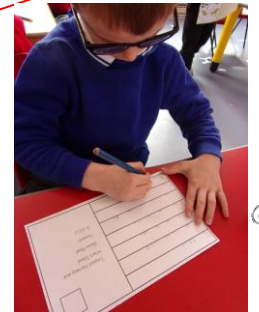

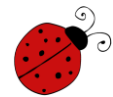

We have been using cubes to measure the height of animals.

We have been practising our throwing and catching in P.E.

We have been writing postcards from the jungle inspired by 'Monkey Puzzle'.

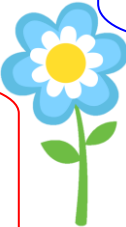

We love learning outside!

We have been doing observational drawings of shells and flowers.

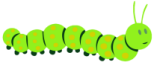

We used collage to make Easter cards for our families.

We took photographs of the signs of Spring around our school.

We have been learning about Spring and thinking about what plants need to grow.

After Easter we will be continuing our learning adventure by doubling, halving and sharing, learning about money, writing sentences, making music, doing athletics in P.E. and so much more!

We can't wait to see where The Magic Wand takes our learning next...
