

Ahoy my hearties! We have all clambered aboard 'Blackbeard's Revenge' to begin our Summer Term learning all about PIRATES...

We researched about famous pirates using a range of sources, including; the internet and non-fiction books. We worked in teams to create a PowerPoint presentation to share our findings.

We drew lines of different shapes and thickness when creating observational drawings of a pirate ship.

We have used a range of methods to solve addition and subtraction problems. We are able to explain that these are inverse operations when solving fact families.

We used key geographical vocabulary and identified human features on a map when completing our treasure hunt around the school.

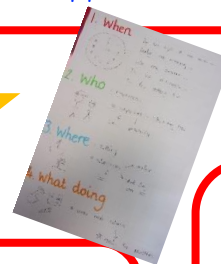

We created our own pirate story animations using the iPad app 'I can animate'.

We applied our skills of using adjectives and different sentence types to create wanted posters to help us find the missing pirates.

We thought back to our amazing 'Pirate Party' day to write a recount of the real life event. We included time connectives, joining words and exciting vocabulary.

We have used our imaginations to begin to write our own pirate stories. We remembered to include the 4 w's to introduce our story; when, who, where and what.

We can explain how exercise effects our bodies and know that it is important to warm up and cool down. We can explain what all humans need to be fit, hygienic and healthy.

We worked in teams to create a soundtrack to a variety of pirate stories. We chose the correct instruments to match events in the story.

We can use our knowledge of place value to estimate missing numbers on a blank number line.

We have learnt the skills to throw, field and bat and applied these in a game of cricket.

We understand how to keep ourselves safe when at the beach. We can explain the instruct linked to each coloured flag.

Next term we will be...

We will work in small teams and set up our own experiments to find out which materials are waterproof. We will use our findings to design and make model pirate ships before testing them on the water.

We will find fractions of a number and a shape. We can write fractions and recognise fractions that are equal.

We will continue writing our super pirate stories, beginning to introduce and solve the problem.

We will be completing lots of activities to prepare us for our transition to Carbeile Junior School.

We will be rehearsing for our favourite event of the year... Country Dance Day! We will be performing 3 routines including the infamous Year 2 maypoles.

We will be comparing the UK and the Caribbean whilst reading maps and following compass directions to guide the pirates to different parts of the world.
